RADICAL RASCALITY. The Radicals are loud-mouthed in their asseverations that the Democratic party, as a party, has been consigned to a political grave, with no hope of even the trump of Gabriel awakening it at the day of resurrection, and still they assert, in the same breath, that we have no policy and that the members of that issues by their determined opposition to negro partisan appeals to the passions and prejudices of the people, to distract their attention from the main and all important question, which is berth by the ship of state under Democratic guidance since the foundation of the Govern ment, or at least since the adoption of our present form of government under and by virtue of the ratification of the original Constitution of our country. That issue is the dd Federal idea of centralizing all power in the General Government-wiping out by amendments all the reserved rights of the States, and by so changing the great national compact as to invest Congress with powers not contemplated tion as human wisdom could attain. VIRGINIA AND THE TEST-OATH.

We clip from the Associated Press dispatches the following morsel:

Washington, Sept. 3.—The War Department yesterday received from Attorney-Gen. Hoar his opinion relative to political affairs in Virginia, and has transmitted the same to Gen. Canby for his information and guidance. It depends upon the latter to make the full text defunct party are carried away from all other public. The Attorney-General says the Legislature must, as a prerequisite, submit the Constitution and its action thereon to Congress and Chinese suffrage; and attempt, by their for its approval. In this the test-oath will be required. If the Constitution and the action of the Legislature be approved, the Legislature then becomes the Legislature of the State of Virginia, and the provisions of the Constinot only the great living issue of the present tution fixing the qualifications of members of the Legislature necessarily prevail, the requirements of the reconstruction acts being thus superceded, so far as Virginia is concerned. But before such approval by Congress, Virginia not being in all respects a State of the Union, the Legislature, as a provisional body, cannot pass laws without its members taking the testoath. The reconstruction acts require the ratification of the Fifteenth Amendment to the Constitution of the United States before the State can be admitted to representation in Congress. There is no question but that this Amendment will be ratified by an overwhelming majority.

NATIONAL EXPENDITURES.

The Chicago Times makes the following pertinent inquiries and comments in regard to the national expenditures and the false promises of the Radical party:

The national expenditures for August, outside of payments on account of the public debt, were nearly \$25,000,000. This would be at the rate of \$300,000,000 a year for current expenses. Is this economy? When Secretary Boutwell makes his annual report, Radical vaporing about reduction of expenses will very likely cease for a time. Where are the expenses reduced? Has the army been cut down, under Grant? Has he reduced the navy? Are the civil and diplomatic services less full than they were? A few clerks have been turned out of the Departments at Washington, among whom were two aged ladies, daughters of Judge Taney, and dependent on their clerk ships for support, and this has been made a pretense for a Radical hullabaloo of rejoicing over an alleged reduction of expenditures. For the last five or six years, in the Summer months, the ruling party has been busy and windy in boasting of its financial reforms, and the first business of Congress, each Winter, was to pass huge deficiency bills. These took precedence even of the nigger. So will it be ext Winter. The present boasting about reduction of expenses is for effect on the Fall

THE BEST LONG BRANCH SWIMMER.-The Boston Post says:
